Certificate's Holder	<b>Triple D innovations, David van Houdt</b>
Manufacturer	<b>Triple D innovations</b>
Trade Mark	<b>Triple D innovations Remote controlled downhaul E-Xtension</b>
Product Model(s)	<b>Triple D innovations Remote controlled downhaul system E-Xtension</b> <b>First series of 100 pcs.</b> <b>All E-Xtensions for RDM,MDM as well as SDM applications</b>
Test Methode	<b>Administrative check by DEKRA on the CE marking of the different components in the E-Xtension apparatus.</b> <b>Physical check that these components are indeed used in the apparatus. As well as witnessing of the functioning of safety devices:</b> <ol style="list-style-type: none"> <li>1. The system switches itself off if there is undervoltage;</li> <li>2. Operation of the general temperature overshoot switch-off;</li> <li>3. Operation of the current limitation;</li> <li>4. Reaction of the battery to immersion in water.</li> <li>5. Reporting of the findings.</li> </ol> <b>Involving EU directive 2014/35/EU (CE).</b>

**CONCLUSIONS**

All parts in the **E-Xtension** remote controlled downhaul system manufactured and/or used by **Triple D Innovations** have been shown to have the CE certification and/or add safety features to the device as a whole. The added safety features to ensure the safety of the device, assembled using the various parts, were demonstrated to be functional. **Therefore, the device as a whole is compliant to the CE regulations.**  
 Conformity requirements, DR/24/230151/001, July 30, 2024, 1.0 Final - 7 / 7.  
 Based on these facts as well as this document involving the EU directive 2014/35/EU (CE) **Triple D Innovations has completed the Conformity Assessment Procedure.**

**Certificate CE**
