Certificate's Holder	Triple D innovations, David van Houdt
Manufacturer	Triple D innovations
Trade Mark	Triple D innovations Remote controlled E-Xtension
Product Model(s)	Triple D innovations Remote controlled E-Xtension First series of 100 All E-Xtensions for RDM,MDM as well as SDM applications
Test Methode	<ol style="list-style-type: none"> 1) Administrative check by DEKRA on the RoHS marking of the different components in the E-Xtension apparatus. 2) Physical check that these components are indeed used in the apparatus. 3) Reporting of the findings. <p>This involves the EU directives 2011/65/EU and 2015/863/EU(RoHS).</p>

CONCLUSIONS

All major components in the **Triple D E-Xtension** device either have a RoHS Certification, or list the specific materials, which makes them RoHS compliant. Therefore, the device as a whole is compliant to the RoHS regulations. Conformity requirements, DR/24/230151/001, July 30, 2024, 1.0 Final - 7 / 7. Based on these facts as well as this document;

Triple D Innovations has completed the Conformity Assessment Procedure.
